

Clonal proportion

Number of clonotypes occupying the 54% of repertoires

Repertoire Overlap of Public Clonotypes (v)

Repertoire Overlap of Public Clonotypes (j)

Repertoire Overlap of Public Clonotypes (v+j)

Repertoire Overlap of Public Clonotypes (aa+v+j)

Repertoire Overlap of Public Clonotypes (aa)

Repertoire Overlap of Public Clonotypes (nt)

Distribution of Public Clonotype Frequencies (v)

Distribution of Public Clonotype Frequencies (j)

Public clonotype frequencies

Number of shared samples

Group

- PT11
- PT35
- PT47
- PT50
- PT52
- PT53
- PT55
- PT56

Distribution of Public Clonotype Frequencies (aa+v)

Public clonotype frequencies

Group

- PT11
- PT35
- PT47
- PT50
- PT52
- PT53
- PT55
- PT56

Distribution of Public Clonotype Frequencies (aa+j)

Public clonotype frequencies

Group

- PT11
- PT35
- PT47
- PT50
- PT52
- PT53
- PT55
- PT56

Distribution of Public Clonotype Frequencies (v+j)

Public clonotype frequencies

Distribution of Public Clonotype Frequencies (aa)

Public clonotype frequencies

Group

- PT11
- PT35
- PT47
- PT50
- PT52
- PT53
- PT55
- PT56

Number of clones

Number of clones in the input data

Total T Cells Per Sample

Chao1

Sample diversity estimation using Chao1

Hyperexpanded Clones – Patient: PT11

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT35

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT47

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT50

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT52

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT53

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT55

Summary proportion of clonotypes with specific frequencies

Hyperexpanded Clones – Patient: PT56

Summary proportion of clonotypes with specific frequencies

Regression: Total T Cells vs Percentage of Hyperexpanded Clones
